REVIEW OF OPERATIONS

Corporate Activities

On 1 July 2015 the Company completed a placement of 1,144,791 fully paid ordinary shares at $0.36 per share to raise $412,125. On 15 July 2015 the Company issued 166,666 fully paid ordinary shares upon the exercise of options at $0.20 per share to raise $33,333. On 13 August 2015 the Company issued 166,666 fully paid ordinary shares upon the exercise of options at $0.20 per shares to raise $33,333. On 16 September 2015 the Company issued 166,666 fully paid ordinary shares upon the exercise of options at $0.20 per shares to raise $33,333. On 1 October 2015 the Company issued 1,000,000 fully paid ordinary shares upon the exercise of options at $0.20 per share to raise $200,000. On 12 November 2015 the Company completed a placement of 882,350 fully paid ordinary shares at $0.38 per share, which raised further $335,293.

On 8 December 2015, Ms Sarah Harvey was appointed as an Alternate Director of the Company for Mr Allen Jay. The appointment is for 12 months or until Mr Jay ceases to be a Director of Dome, subject to renewal, and is intended to provide continuity of corporate governance while Mr Jay undergoes medical treatment.

The loss of the Group for the half-year after providing for income tax amounted to $604,870 (2014: $860,765).

The net asset position of the Group has increased from $27,541,213 at 30 June 2015 to $27,905,645 at 31 December 2015.

Fiji Exploration Developments

Dome Gold Mines Ltd was incorporated on 8 July 2011 and is a mineral exploration and development company that has interests in mineral exploration projects in Fiji. The Company was listed on the Australian Securities Exchange in Sydney on 22 October 2013.

Dome, through its wholly owned Fijian subsidiaries, Dome Mines Ltd and Magma Mines Ltd currently holds 100% of three exploration tenements in Fiji, namely:

SPL1495 (Sigatoka Ironsand Project),
SPL1451 (Ono Island Project), and
SPL1452 (Nadrau Project).

In the September 2015 quarter, the Company relinquished SPL 1454 (Nasivi Delta Project) (see ASX announcement dated 30 October 2015).

Directors' Report

Sigatoka Ironsand Project

A Pre-Feasibility Study Report was completed in February 2015 (see ASX announcement dated 24 March 2015). Key points from the Report include:

- Conclusion that Sigatoka Project is both profitable and robust,
- Products from dredge mining will be magnetite concentrate, non-magnetic bulk heavy mineral concentrate, industrial sand and gravel,
- Project modelling indicates NPV at 7.5% discount rate of $US236.9 million and IRR of 55%, and
- Project capital is estimated at $US83.2 million, with a Payback of less than two years after commencement of full production.

On 8 October 2015 formal approval was received from the Fiji Department of Environment of the Environmental Impact Assessment (EIA) report on the Sigatoka Project (see ASX announcement dated 12 October 2015).

In December 2015, the Company finalised and submitted documentation for its Mining Lease Application to the Mineral Resources Department (MRD) in Fiji in respect of the Sigatoka Ironsand Project (see ASX announcement dated 28 January 2016). Dome anticipates that the MRD will grant the lease later this year.

Ono Island Project

Also as part of its tenement rationalization program Dome elected to relinquish the Kadavu (or Gasele) block from SPL 1451 (see ASX announcement dated 30 October 2015). The soil sampling geochemical program completed on the Gasele Block did not reveal any areas of elevated metals and the Company decided to focus on the Naqara East and Naqara West prospects on Ono Island. Relinquishment of the Gasele Block has reduced the SPL 1451 tenement from 4,213 ha to 3,028 ha in area.

It is proposed that the next phase of exploration on Ono Island be a pole-dipole Induced Polarisation (IP) survey designed to delineate the resistive zones which should correspond to the silicic zones mapped at the surface. More importantly, the IP should determine the persistence at depth of the resistive zones down to 350 – 400m where potential 'bonanza' mineralised zones are most likely to occur.

Nadrau Project

In addition to rationalization of the SPL 1451 tenement, an area not considered prospective in the central part of SPL 1452 was also relinquished (see ASX announcement dated 30 October 2015). The relinquishment reduced the area of the tenement by 9,357 ha and split the tenement into two blocks, an eastern block immediately north on the Namosi SPI and a second western block covering the Namoli and Wainivau porphyry copper-gold prospects.

Quotes were obtained to undertake three dimensional Induced Polarisation and magnetometer surveys over the Namoli Prospect. The objective of this work is to provide subsurface data on the intrusive systems whose interpretation will assist with targeting of exploration diamond drill holes. The Company is undertaking a regional BLEG (Bulk Leach Extractable Gold) stream sediment geochemical sampling program over the Sovi Basin intrusive complex on the eastern block of SPL 1452. This area has not yet been subject to exploration by Dome and when the geochemical sampling program is completed the Company will have a basis on which to determine if further exploration of this part of the tenement is warranted.

Directors' Report

NO MATERIAL CHANGES STATEMENT

Information that relates to progress of the Sigatoka Ironsands project was previously reported to the ASX on 23 July 2015 and 12 October 2015 and is available to view on the Company's website at www.domegoldmines.com.au. Dome Gold Mines Ltd confirms that it is not aware of any new information or data that would materially affects the information or supporting documentation included in the announcements and that all material assumptions and technical parameters underpinning the estimate continue to apply and have not materially changed.

The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

COMPETENT PERSON STATEMENT

The information in this report that relates to Exploration Results is based on information compiled by Mr John McCarthy, who is Chief Executive Officer of the Company. Mr McCarthy is a geologist who is a Member of the Australasian Institute of Mining and Metallurgy and has sufficient experience relevant to the styles of mineralisation and types of deposits under consideration and to the activities which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr McCarthy indirectly holds shares in the Company and consents to the inclusion in this report of the matters compiled by him in the form and context in which it appears.

SUBSEQUENT EVENTS

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

AUDITOR'S INDEPENDENCE DECLARTION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

The auditor's independence declaration is set out on page 4 as required under section 307C of the Corporations Act 2001 and forms part of this Directors' Report.

Notes to the Condensed Interim Consolidated Financial Statements

1 BASIS OF PREPARATION

The condensed interim consolidated financial statements of the Group are for the six months ended 31 December 2015 and are presented in Australian dollar ($), which is the functional currency of the parent company. These general purpose interim financial statements have been prepared in accordance with the requirements of the Corporations Act 2001 and AASB 134 Interim Financial Reporting. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 June 2015 and any public announcements made by the Group during the half-year in accordance with continuous disclosure requirements arising under the Australian Stock Exchange Listing Rules and the Corporations Act 2001.

The interim financial statements have been approved and authorised for issue by the board of directors on 18 February 2016.

Going concern

The consolidated financial statements have been prepared on a going concern basis which contemplates the realisation of assets and settlement of liabilities in the ordinary course of business.

For the 6 months to 31 December 2015, the Group has incurred a trading loss of $604,870 (2014: $860,765), used $938,763 (2014: $1,436,929) of net cash in operations including payments for exploration for the half year ended 31 December 2015, and had a cash balance of $1,232,405 as at 31 December 2015. These conditions give rise to a material uncertainty that may cast significant doubt upon the Group's ability to continue as a going concern. The ongoing operation of the Group is dependent upon:

- the Group raising additional funding from shareholders or other parties; and/or
- the Group reducing expenditure in-line with available funding.

The Directors have prepared cash flow projections that support the ability of the Group to continue as a going concern. These cash flow projections assume the Group obtains sufficient additional funding from shareholders or other parties. If such funding is not achieved, the Group plans to reduce expenditures significantly.

In the event that the Group does not obtain additional funding and/or reduce expenditure in-line with available funding, it may not be able to continue its operations as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the financial report.

2 SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements have been prepared in accordance with the same accounting policies adopted in the Group's last annual financial statements for the year ended 30 June 2015, unless otherwise stated.

The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these interim financial statements.

Notes to the Condensed Interim Consolidated Financial Statements

3 SEGMENT REPORTING

Segment information is presented in respect of the Group's management and internal reporting structure.

Inter-segment pricing is determined on an arm's length basis.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly income earning assets and revenue, interest bearing loans, borrowings and expenses, and corporate assets and expenses.

Segment capital expenditure is the total cost incurred during the period to acquire segment assets that are expected to be used for more than one period.

Geographical segments

For the half-year year ended 31 December 2015 the Company principally operated in Fiji in the mineral exploration sector.

The Group has one reportable segment, as described below:

Impairment – SPL 1454	-	(1,070,410)
Closing balance	27,412,244	27,037,069

Directors have reviewed the carrying value of deferred exploration and evaluation expenditure and have formed a conservative view on the carrying value of these assets. The ultimate recoupment of these costs is dependent on the successful development and exploitation, or alternatively sale, of the respective areas of interest.

6 EQUITY SECURITIES ISSUED

The Group issued 3,527,139 shares during the six months to 31 December 2015 for cash. Each share has the same right to receive dividends and the repayment of capital and represents one vote at the shareholders' meeting of Dome Gold Mines Ltd. Shares issued and authorised are summarised as follows:

7 SUBSEQUENT EVENTS

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

Directors' Declaration

In the opinion of the directors of Dome Gold Mines Ltd:

1. the consolidated financial statements and notes of Dome Gold Mines Ltd are in accordance with the Corporations Act 2001, including

i. giving a true and fair view of its financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and

ii. complying with Accounting Standard AASB 134 Interim Financial Reporting; and

2. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

Independent Auditor's Review Report
To the Members of Dome Gold Mines Ltd

We have reviewed the accompanying half-year financial report of Dome Gold Mines Ltd (the "Company"), which comprises the consolidated financial statements being the statement of financial position as at 31 December 2015, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a statement or description of accounting policies, other explanatory information and the directors' declaration of the consolidated entity, comprising both the Company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such controls as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the consolidated half-year financial report based on our review. We conducted our review in accordance with the Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Dome Gold Mines Ltd consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Dome Gold Mines Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

Grant Thornton

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence
In conducting our review, we complied with the independence requirements of the Corporations Act 2001.

Conclusion
Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Dome Gold Mines Ltd is not in accordance with the Corporations Act 2001, including:

a giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and

b complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.

Material uncertainty regarding going concern
Without qualifying our conclusion, we draw attention to Note 1 to the financial statements which indicate the consolidated entity incurred a net loss of $604,870, has net cash used in operations (including payments for exploration) of $938,763 during the period ended 31 December 2015, and has a cash balance of $1,232,405 as at that date. These conditions, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty which may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the financial report.
