

## PAINT REMOVER

### DESCRIPTION

Ultratex Paint remover is a liquid paint remover developed to remove most paint and primers including acrylic paints, adhesives and a variety of other coatings from many types of substrates including masonry and plastics.

### USES

ULTRATEX paint remover is a fast, easy and safe way to remove oil-based paints, varnishes, enamels, plastic coatings, lacquers, stove finishes, polyurethanes, synthetic finishes, and emulsions paints, among many others. It is safe to use on metal, plaster, stone, wood, and concrete.

### PERFORMANCE

Water: remove from surface by washing with detergent water.

Fire: non-flammable. However, keep away from open flames and red hot surfaces.

Biological: not susceptible to biological or fungal attack.

Thermal: should not be stored or used at temperatures above 25°C or below 5°C.

Durability/reliability: must be closed securely following each use to prevent degradation and maintain performance of product.

### COMPATIBILITY WITH OTHER PRODUCTS

Not compatible with other paint remover products. Incompatible with rubber, linoleum, polystyrene, glass fiber, resin, plastic, or vinyl floor covering, synthetic fabrics, asphalt, Perspex, spectacle lenses, and watch glasses.

### Application

Just spray Paint remover onto the surface, allow to penetrate then wipe away with a damp cloth. Polish with a dry cloth. Paint remover is concentrated and can be diluted with water for lightly soiled surfaces.

## **STORAGE**

Keep in an airtight container between 5°C and 25°C.
